### **WA State "Green Jobs" DVD Wins Prestigious Telly Award**

WA State Departments of Ecology and General Administration along with Renton Center for Excellence in Construction and Pacific Mountain Alliance for Innovation-WIRED are proud to announce receipt of a bronze Telly Award for excellence in video programming for Education and Government Affairs. With nearly 11,000 entries from all 50 states and around the world, this year's 30th anniversary has been one of the most competitive and successful in the long history of the Telly Awards. <http://www.tellyawards.com/>

In an effort to describe the opportunities that exist in the fast growing market of "green construction" the film project: "Green Building: Jobs of the Future" offers audiences a fast-paced and informative look at the opportunities in the green economy. The film brings together local and national leaders in green building, climate change, manufacturing, and work-force development to make the case for green building's capacity to create jobs and boost the economy while not further imposing on our environment. See the video on WA State's YouTube site: <http://www.youtube.com/watch?v=rr0IAWO9lnk>

Founded in 1979, the Telly Awards is the premier award honoring outstanding local, regional, and cable TV commercials and programs, the finest film and video productions, and groundbreaking web commercials, videos and films. Winners represent the best work of the most respected advertising agencies, production companies, television stations, cable operators, and corporate video departments in the world.

A prestigious judging panel of 350 accomplished industry professionals, judged the competition, upholding the historical standard of excellence that Telly represents. The entries do not compete against each other. They are judged against a high standard of merit.
